This information is advisory in nature. It is offered as a resource to help you establish adequate business income and extra expense values for insurance purposes. This guide is necessarily general in content and is intended as a tool that you can use together with others at your disposal to establish the values you wish to insure. Because the steps outlined in this resource rely on information provided by the insurance purchaser, no representation is made with respect to the accuracy, adequacy or suitability of the values established. No liability is assumed by reason of this information, the values determined using it or the insurance buying decisions made as a result. In determining the values you wish to insure, you should consult with your insurance representatives.
